

ASSEMBLY INSTRUCTION

- 1) Be sure to check the following components and check for damage before assembling.
 - 2) To prevent product damage, do not use powerful power tools.
 - 3) Do not over tighten the nuts and bolts until the product is fully assembled
- When assembling, tighten the nut and bolt by about 80% first and then tighten them completely at the end.
- 4) Do not use detergents or chemical detergents when wiping the product.

COMPONENTS		QUANTITY	COMPONENTS		QUANTITY
Bolt		8	Foot pad		4
Washer		8	Top plate		1
Allen Key		1	Leg		4

※ After installing the parts, tighten all parts and screws.

Store the tool after assembly so that it can be re-tightened when the screws are loose and shaken.

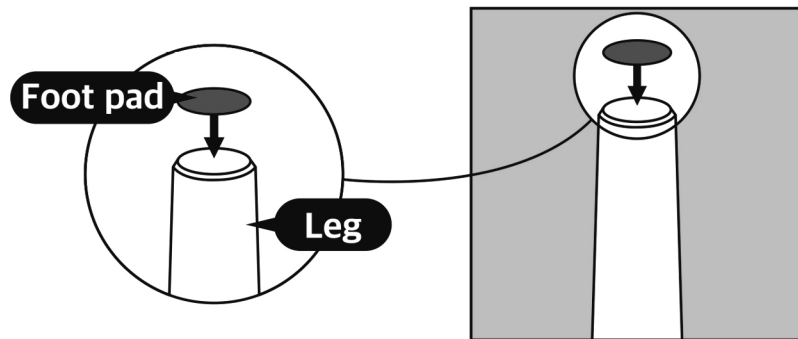

STEP 1

Install to each bolt in the order of washer.

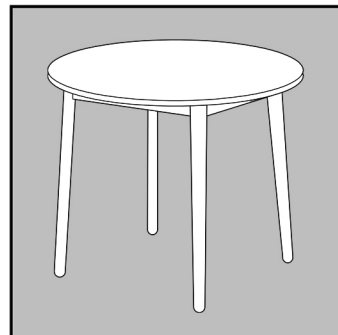

Assemble each legs into the corners of the table.

※ It's easier to tighten with your hands first.

STEP 2

Please put a foot pad on the tip of your leg.

STEP 3

After carefully flipping the product with two or more people, Tighten again with the Allen key.
